Coffman Engineers San Diego Office Has Moved

Demand for Engineering Services Causes San Diego Office Growth

SAN DIEGO, CA (June 6, 2017) – Coffman Engineers, Inc. (Coffman), a mid-sized, multidiscipline engineering firm has moved to a new location at 8885 Rio San Diego Drive, Suite 240, San Diego, California. To support growing demand for fire protection and multidiscipline engineering services, the office added nine employees during the first year of business in San Diego and moved to a larger space to accommodate the growth.

The new office location comes during an exciting time of growth for Coffman as they strategically increase their fire protection engineering services across the country. In early 2016, the San Diego office started by offering fire protection engineering and building/life safety code consulting services to area clients. The demand for this service and other engineering disciplines has steadily grown over the past year, allowing the office to organically grow and provide full service electrical engineering under the supervision of Joe Dews.

“We are excited and humbled to achieve growth that has driven us to move to a larger office and put down deeper roots in San Diego. We look forward to improving our offerings to our clients by expanding our services and attracting talented professionals,” said Scott Twele, P.E., Operations Manager and Fire Protection Engineer at Coffman Engineers.

The office is led by Operations Manager, Scott Twele, P.E., who has lived in San Diego for the past 15 years. He is joined by a team of nine engineers and support staff including recent hires: Joe Dews, P.E.; Rae Ferriolo, P.E.; Will Fletcher; Matt Foley; Trevor Griffith; Tracy Lyon; Aman Shah, P.E.; Kevin Thommes, CET, and Chris Wicker.

About Coffman Engineers

Coffman Engineers is proud to celebrate 38 years of providing clients with multidiscipline engineering solutions and is ranked at #198 in Engineering News-Record’s 2017 Top 500 Design Firms list.
